

CERTIFICATION OF DESIGN INCORPORATING MITIGATION PLAN

As required by 9 VAC 15-40-30.A.9. and in accordance with § 10.1-1197.6 B 9 of the Code of Virginia, the undersigned professional engineer licensed in Virginia certifies that the Rocky Forge Wind project to be located in Botetourt County, Virginia, is designed in accordance with 9 VAC 15-40-80. The design and installation of the small wind energy project incorporate the requirements of the mitigation plan that pertain to the design and installation.
