Re: Rocky Forge Wind Permit by Rule

Dear Beth:

We are pleased to present the Rocky Forge Wind Permit by Rule Application for your review. Enclosed are the following documents associated with this application submittal:

- 1) One hard copy of the full application and one disk with an electronic version of the application for DEQ's use;
- 2) An extra set of copies of the Feasibility Study Report, the System Impact Study Report, and the Interim Interconnection Services Agreement for DEQ to provide to the State Corporation Commission; and
- 3) Disks with electronic versions of the application for DEQ to distribute to DCR (1 disk), DGIF (2 disks), DHR (1 disk), and DMME (1 disk).

We have coordinated directly with DCR and DHR for their specific data requirements (shape files for DCR and specific copies of the cultural resources report for DHR) and have provided both of those agencies with their requested information.

Please do not hesitate to call me if you have any questions.

Sincerely,

Charlie Johnson  
Development Manager
